EDUCATION

CERTIFICATE IN WEB DEVELOPMENT

Epicodus, 3.2019-8.2019

PHILOSOPHY BA SPANISH BA BUSINESS MINOR SLAT CERTIFICATE

University Of Oregon, 2009-2015

ABOUT ME

Building on a broad education and varied work history, I've put my love of learning into full stack web development. I am passionate about writing maintainable code through the lense of rapid iteration and quality deliverables.

PROJECTS

PORTLAND FIELD GUIDE

This was a team project: a website guide to Portland's flora, designed mobile-first. The app was built with Javascript, Angular, and hosted on Firebase. using their realtime database. I created and setup the JSON database, connected the database to all front-end functions calling on its data, and wrote the search function. Here is a link.

ASSASSINS

This was a team project: a website built as a game-master for the in-person game. The app was built with a C# front and back end, using the MVC framework, and a MySQL database. My work was to set up the database, models and migration, write CRUD functionality, and set up the controllers to display the correct view. Check out the github.

EXPERIENCE

MOBILE DEVELOPMENT INTERN

EyeCue Lab, 8.2019-9.2019

- Development: 7 weeks working in existing code base to make a pedometer game available on IOS and Android.
- Worked in: an Agile environment, managing project tasks with Jira.
- Implemented new features, resolved platform differences, updated code to meet the linter, created github wikis for the front and back ends. See github here.
- Worked with: Node.js, PostgreSQL, Redux, React Native., Expo, Heroku

WELDER / FITTER FOR RAIL CARS

Gunderson, 2018-2019

MANY ROLES AT A FOOD START-UP

The Better Bean Company, 2009-2011; 2013; 2015; 2017

- Manager of the shipping department: processed, built and sent out office shipments., maintained office supplies
- Sales: worked in sales at Farmer's Markets, in-store demos and food industry events.
- Production: implemented OSHA standards in producing safe, high quality food products
- Distribution: utilized attention to detail in distributing product to clients to ensure accuracy of order.
